Cross-Agency Training for
Carroll County Health and Human Service Providers

For a better understanding of the Cross-agency training here are examples of the scenarios. Examples of Scenarios to be used during small groups and as panel discussion:

Scenario 1:
Single divorced female age 36, two daughters age eleven and nine. Ex-husband is unemployed and not paying child support. Eleven year old diagnosed with tumor on left knee. Mother loses job while taking care of eleven year old due to missing too much time. Within the last thirty days, the apartment building they reside in was sold due to landlord’s bankruptcy. New landlord has given her thirty days to vacate. In addition, the mother had her car repossessed and has not paid rent for the last sixth months. In addition, the mother has had a severe mental health breakdown and her nine year old has been diagnosed with a brain tumor. What would you do?

Scenario 2:
Male who is in his mid fifties married and working at a box hardware store. He suffers from post traumatic stress disorder from the loss of their twenty year old daughter due to a heart attack. They are behind in their bills and mortgage and unable to work due to PTSD. Social security benefits will take more than nine months. Wife works but does not make enough. What would you do?

A collaborative training offered by and for the members of The Partnership for a Healthier Carroll County Inc’s Access to Health Care Leadership Team.
2014 Cross-Agency Training for Health and Human Services
Participating Agency Information Form

One of these forms is to be returned with agency registration and it will be copied and distributed to all participating agencies the day of the training for the participant manuals.
